THE BIG SIX

THE BIG SIX WHEEL

The Big Six is a simple and fun game to play. The game is played with a large wheel which has 54 sections, each marked with the odds of the payoff. The objective is to guess which section the clapper will come to rest in after the wheel is spun.

To Play:

Players simply place their bets on the numbers or symbols they wish to bet on. Once all wagers are placed the Dealer will spin the wheel. The wheel must complete 3 revolutions to be a valid spin. If the wheel does not complete 3 revolutions it will be respun. The winning number or symbol will be the section that the clapper comes to rest in. If the clapper rests between 2 numbers or symbols the wheel will be respun.

All wagers must be made before the Dealer announces "no more bets".

Pay Table:
