CASINO WAR

Casino War takes the child's game to a new exciting and fun level.

TO PLAY AGAINST THE DEALER:

At the beginning of each round, players make an initial wager. Each player and the dealer will receive one card face up. To win the wager, the rank of the player's card must exceed the rank of the dealer's card. Winning wagers are paid 1 to 1.

GOING TO "WAR":

If the player's card matches the dealer's card in rank, the player can either surrender half the initial wager and the hand ends or go to "War". If a player elects to go to "War" they must make a "War" wager equal to their initial wager. The dealer will burn three cards without revealing their value and then deal one card face up to the player. Three more cards are burned and a card is dealt face up to the dealer. The highest ranking card wins the "War".

If the player wins the "War", the initial wager is returned to the player and the "War" wager is paid 1 to 1. If the "War" deal results in a tie, the initial wager is returned to the player and the "War" wager is paid 2 to 1.

TIE BETS:

Casino War also features a bonus bet on ties. If the player's card and the dealer's card are the same rank the Tie bet is paid 10 to 1. Tie bets are allowed on the initial wager and "War" wagers.
